Annual financial statements for the year ended 28 February 2017

Directors' Responsibilities and Approval

The directors are required to maintain adequate accounting records and are responsible for the content and integrity of the annual financial statements and related financial information included in this report. It is their responsibility to ensure that the annual financial statements fairly present the state of affairs of the entity as at the end of the financial year and the results of its operations and cash flows for the period then ended, in conformity with the International Financial Reporting Standards for Small and Medium-sized Entities. The external accounting officer are engaged to express an independently reviewing on the annual financial statements.

The annual financial statements are prepared in accordance with the International Financial Reporting Standards for Small and Medium-sized Entities and are based upon appropriate accounting policies consistently applied and supported by reasonable and prudent judgments and estimates.

The directors acknowledge that they are ultimately responsible for the system of internal financial control established by the entity and place considerable importance on maintaining a strong control environment. To enable the directors to meet these responsibilities, the directors sets standards for internal control aimed at reducing the risk of error or loss in a cost effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the entity and all employees are required to maintain the highest ethical standards in ensuring the entity's business is conducted in a manner that in all reasonable circumstances is above reproach. The focus of risk management in the entity is on identifying, assessing, managing and monitoring all known forms of risk across the entity. While operating risk cannot be fully eliminated, the entity endeavours to minimise it by ensuring that appropriate infrastructure, controls, systems and ethical behaviour are applied and managed within predetermined procedures and constraints.

The directors are of the opinion, based on the information and explanations given by management, that the system of internal control provides reasonable assurance that the financial records may be relied on for the preparation of the annual financial statements. However, any system of internal financial control can provide only reasonable, and not absolute, assurance against material misstatement or loss.

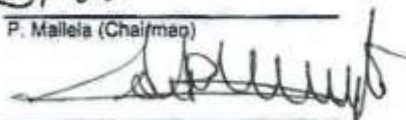

The directors have reviewed the entity's cash flow forecast for the year to 28 February 2018 and, in the light of this review and the current financial position, they are satisfied that the entity has or has access to adequate resources to continue in operational existence for the foreseeable future.

The external Drafter is responsible for drafting the financial statements. The Treasurer is responsible for reporting on the entity's annual financial statements.

The annual financial statements set out on pages 5 to 13, which have been prepared on the going concern basis, were approved by the directors on 02/11/2018 and were signed on its behalf by:

P. Mallela (Chairman)

B. Ka Mandita (Treasurer)

G. Makatu (Deputy Chairperson)

Notes to Annual financial statements

1.0 Accounting Policies

1.1 Presentation of Annual Financial Statements

The annual financial statements have been prepared in accordance with the International Financial Reporting Standards for Small and Medium-sized Entities. The annual financial statements have been prepared on the historical cost basis, and incorporate the principal accounting policies set out below. They are presented in South African Rands.

These accounting policies are consistent with the previous period.

1.2 Property, plant and equipment

Costs include costs incurred initially to acquire or construct an item of property, plant and equipment and costs incurred subsequently to add to, replace part of, or service it. If a replacement cost is recognised in the carrying amount of an item of property, plant and equipment, the carrying amount of the replaced part is derecognised. Property, plant and equipment is carried at cost less accumulated depreciation and any impairment losses. Depreciation is provided using the straight-line method to write down the cost, less estimated residual value over the useful life of the property, plant and equipment, which is as follows:

Item	Estimated useful life
Plant and machinery	6 years
Furniture and fixtures/Office Furniture	5 years
Motor vehicles	5 years
Office equipment	5 years
IT equipment /Computers	3 years
Studio Equipment	5 years

The residual value, depreciation method and the useful life of each asset are reviewed at each annual reporting period if there are indicators present that there is a change from the previous estimate. Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item and have significantly different patterns of consumption of economical benefits is depreciated separately over its useful life. Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised in profit or loss in the period.

1.3 Trade receivables

Trade receivables are carried at an anticipated realisable value. An estimate is made for doubtful receivables based on a review of all outstanding amounts at year end. Bad debts are written off during the year in which they are identified.

1.4 Cash and cash equivalents

For the purpose of the cash flow statement, cash and cash equivalents comprise cash on hand and cash at the bank.

1.5 Revenue

Revenue from advertising and other income is recognised when received. Interest is recognised in surplus or deficit, using the effective interest rate method. Donations received are measured on an estimate basis.
